

Central Vermont Youth Hockey
Late Payment Policy
March 31

All payments for registration fees will be paid via credit card directly through Sports Engine. Families have the option to make full payment at time of initial registration or they can opt to pay over an installment method. The installment method will consist of 4 equal payments due as follows: 25% due at time of initial registration; 25% due on 10/15; 25% due 11/15 and 25% due 12/15. For individuals paying on the installment method, automatic payment will be established for the remaining three payments.

A reminder email about the upcoming installments will be sent to the overall organization the first of October, November and December. On the 15th of the month, the payment will be automatically charged to the debit/credit card that was used at time of registration.

If the charge is declined, you will be notified by the Treasurer the next business day. You will have five (5) business days to bring your account to current. If payment is not received within the 5 business days, your account will enter the late payment status. If your account enters the late payment status, the following will occur:

- The player will be unable to participate in practice and/or games until account is brought current.
- A \$25.00 late payment fee may be applied to your account.

In isolated cases the Treasurer has the authority to make different payment arrangements with the family. However, the communication must come from the family and be in writing prior to the installment payment deadlines.
