Frequently Asked Questions
Last Updated 05.11.2020

Q  When are the bodies due?
A  May 22, 2020 (Friday)

Q  Where should the bodies be dropped off?
A  6517 Polar Circle – Edina
    There is a large bin on the front steps.

Q  How should I label the printed body?
A  Sharpie the students’ first and last name, along with a cell phone number, on the back of the body in the general area of the head.

Q  Is fireproof paper still needed? What material are the vendors using this year?
A  While we technically no longer need the paper to be fireproof due to Edina Fire Department safety standards, we are still using the new material this year. The vendors are all printing on a vinyl-like banner type material, which is weather-proof.

Q  How and where will the bodies be displayed?
A  The bodies will be used at the celebration being held outdoors at the high school. They will be strung via the grommets (that are being installed by the vendors).

Q  What about intentional damage or vandalism?
A  We are aware of this concern, and will have security to monitor the bodies while they are displayed.

Q  How and when will families get the printed body back?
A  This is to-be-determined, and we appreciate your patience. We understand many families will want them for personal events on May 31st (Sunday), and are working on a plan to allow for pickup on May 30th (Saturday).

Q  Should I decorate the body, as many families have in past years?
A  Please consider the elements (such as rain and wind) when decorating this year. Stickers may be the best option. Families may opt to save the traditional extensive decorating for after the outdoor celebration event. Those familiar with Photoshop could add images digitally before printing the body.

Q  Are the bodies a surprise for the Seniors?
A  I think most of them know about it, but families may choose to keep the reveal of their printed body a surprise.
Q  In past years, families would pick up a roll of paper, and then affix their printed body to that paper with adhesive – do we need to do that for the class of 2020?
A  No! That step has been eliminated. The vendors print directly onto the final product.

Q  What are the dimensions of the printed bodies?
A  29” x 72”
