Clarifying language in 35+ (Approved October 28, 2025)

JAHA Rule 7(a) amended will now read:

"Players in 35+/40+ are limited to scoring a maximum of 3 goals in a single game. If a player who has already scored 3 goals scores another, the goal will be disallowed, and a faceoff will be held in the offensive zone. This rule only applies to regular and overtime play. A player scoring 3 goals is still allowed to participate fully in a shootout."

Goal limitation in Tier D to encourage team play and passing (Approved December 9, 2025)

JAHA Rule 7(b)(i) is created to read:

"Players in Tier D are limited to scoring a maximum of 3 goals in a single game. If a player who has already scored 3 goals scores another, the goal will be disallowed, and a faceoff will be held in the offensive zone. This rule only applies to regular and overtime play. A player scoring 3 goals is still allowed to participate fully in a shootout."

Technical and Conforming Changes:

A typo in JAHA Rule 7, now renumbered to 7(b)(i), is corrected to change the word "now" to "not" which conforms with the intent of the rule: Substitutes in Tier D, from higher Tiers, are disallowed from scoring goals in Tier D games.
