

SHAW Families-

My name is Joan Espil and am running to fulfill the open position of secretary on the Executive Board. I have been part of SHAW for the past 6 seasons. My two children play- John is a goalie and just finished his season with Squirt C white, and Hannah is a bantam.

I have been involved with both of my kids teams as manager for many seasons. I have an active role in their hockey life and am looking to continue that role as a part of the EB. I have been to many board meetings and am familiar with the importance and commitment of this position.

Secretaries need to have sharp interpersonal skills, time management abilities, and organizational skills. I pay close attention to details and feel that my strong communication skills will benefit the organization. Being a parent with both a son and daughter playing, as well as having both a skater and goalie only adds to what I can contribute to the EB. In my nursing profession these skills are used daily to help maintain my patients medical care and documentation in their medical record. I have been a RN for 19 years- currently working for Froedtert Health.

Thank you for consideration and your time. I would appreciate your vote for Secretary.
