All,

If you and your team are part of our league program and have paid to rent fields, on the league's dates during the season, that does not grant access to any fields for practices on any other day of the week.

With the start of the Little League programs access to their fields will be given to Little League teams first. If you are wanting to practice on ANY field you must approach the owner/care takers of those facilities and obtain approval (in writing) before you start to practice or schedule a scrimmage game. I've had several phone calls and emails from various Little League's as well as Park and Rec programs concerned that the proper chain of communication is not taking being followed.

Regardless of your relationship with a field owner please be considerate and ask/obtain approval first.

As an incentive to granting access most fields in the area have been named additionally insured on each team's insurance policy.

If you have any questions, feel free to contact me at abqusssa@aol.com or by phone at 505-417-1810

Thank you,
Dana Gilmer
