

Providing a logical and low-cost path into the association

LTP Transition Template - 10-week dedicated program, or incorporation into current LTP plans with dedicated support. (Getting the girls to show up to the events is a task on its own, however possibly more important is making sure there is an easily accessible avenue for the child to join a program/team. The more time they have between the the event (that they had a great time at) and the start of a new season, that spark is gone and they most likely have found something else to peak their interest.

Girl Hockey Leaders - The association needs focus and a dedicated girls hockey leader who can support the events, ensure that the girls who are in LTP get the information about joining teams, etc. Having a female hockey role model is crucial for the child to be able to visualize themselves in the sport long term.
