

Dear Neighbor,

While walking the neighborhood with my family, I noticed you have a basketball basket. I am a basketball player with the **Mpls Lakers**. We had a very rewarding season this past winter and I am looking forward to improving and playing more basketball in the future.

I am writing to see if I could use your basketball basket while the basketball baskets at the Mpls parks are closed. I do not have a basket at home and although I work on my ball handling at home, I would really have fun & improve as a player if I could shoot at your basket this Spring & Summer.

I would limit my use to between **10am and 4pm** if that's agreeable to you. If you or your family was outside, when I come over, I could come back another time. I want to follow our physical distancing guidelines.

Could you please call me at _____ to confirm your thoughts on this approach? I certainly would appreciate the opportunity to shoot some hoops on your basket. Thank you for your consideration.

Sincerely,
