7.29.20

ZYSA Families:

We trust that this note finds you and your family well, and excited to begin the fall soccer season! The attached is being resent as a reminder on current safety imperatives that are in place as we get started on campus the next couple of weeks. Please be sure to review.

The below will highlight several critical points that staff, players, and family members must abide by whether for training at ZYSA and/or competition at ZYSA (or another club's facilities). Should you have any questions, please do not hesitate to contact your respective director (contact information is at the end of this correspondence).

Please note ...

\* Parents/families are responsible for taking their player's temperature prior to departure for training and competition. According to the Indiana Department of Health, if any individual's temperature is 100.0 or above and/or if they are experiencing any of the below symptoms and/or the individual has come in contact with anyone who was exposed to COVID-19, they should not participate in or attend the activity. The individual or their guardian should contact their physician or local health department for next steps, as well as inform their coach. These symptoms are:

- Cough
- Shortness of breath or difficulty breathing
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

\* Any time that an individual is moving across the facility, from the time they get out of the car to the time they arrive at their field assignment, they must be wearing a mask;

\* Players should not arrive to their training field any earlier than 5 minutes prior the session start time;

\* As much as we love having our parents and families hang out at the fields during the training sessions, we will only be allowing one (1) parent of our u5 to u8 players on

campus during training this fall season. Parents of u9 and older players must wait in their cars during training, or come back to campus to pick-up their player/s;

\* For our travel players, the Fall Inclement Weather schedule will NOT be in effect until we have the opportunity to address routine sanitation procedures in the indoor building. When this is in place, we will make a follow-up announcement. In the meantime, when we are canceled for inclement weather, there will be NO training in the indoor building;

\* Players should not arrive to their game field any earlier than 25 minutes prior to kickoff;

\* Parents/family members should not arrive to their player's game field any earlier than 5 minutes prior to kickoff. Family members over the age of 65 should stay home;

\* In competition, players will remove their masks. When on the bench during games, we will have marked areas (paint) for players to remain 6' apart from one another (masks will not need to be worn). Players should consider bringing their own chair, and own umbrella (shade) for games. There will be NO team benches;

\* Once parents (and their family) have settled in on the spectator sideline (we will have designated seating areas marked by paint), they can remove their masks. Parents/families should put their masks back on when addressing other parents/families during the game and/or when walking around campus (anytime removing self from designated seating area);

\* Unless a coach is giving instruction in the run of play to players on the field, they must have their mask up/on. Anytime a coach is addressing a player closer than 6' away, they must have their mask up/on;

\* Please note that ZYSA will not have port-o-lets on campus this fall season. The restrooms will be open (concessions breezeway). We will have 6' distances marked by tape;

\* Our concession stand will be open, and all guests must be wearing a mask when they order. We will have 6' distances marked by tape.

We are confident in our plan to welcome the players, teams, staff, and family members back to campus. Though it will take some effort and getting used to, we all have a role to play and must do our part to take care of one another. Should you have any questions on any of the above, please do not hesitate to reach out to Dan Kapsalis (rec families) or Jonathan McClure (travel families).
