

Concession Stand Opening Shift Instructions

Practice nights differ from game and tournament nights/days.

Practices –

On practice nights we do not use the hot dog roller or the fryer. Hot dogs and brats can be microwaved on demand. There is too much waste when we use the roller and fryer on practice nights.

Make one batch of popcorn to get started. Instructions are on the bottom shelf with popcorn products.

Make coffee, only a small batch of one bag at a time.

Pretzels – turn on warmer and place 3-4 pretzels in machine. Others may be microwaved too if needed.

Open the windows using the key to unlock the locks and be ready for business.

Youth Games and Tournaments –

Do the above items increasing the coffee to a larger batch if needed. Place a few more pretzels in the warmer. Might need to make another batch of popcorn if busier. Start popcorn about 9:00-9:30am on tournament weekends.

Turn on fryer and follow instructions. Turn on fryer at about 9:45am to give enough time to get up to temperature.

Place hot dogs and brats on the roller. Use about 4-5 hot dogs and 3-4 brats. Gauge the attendance in the building and don't waste hot dogs/brats if there are only a few people in the building. Follow machine instructions for temp. Roller's heat in separate zones and are indicated on the dials. Start hot dogs/brats at roughly 10am on weekend games/tournaments.
