

INFORMATION BULLETIN

Bulletin #: I2025-16
April 23, 2025

To: Ontario Soccer; District Membership and Associate Members
CC: Ontario Soccer; Board of Directors, Staff
From: Matt Ferreira, Director of Development

Subject: Research Advisory Committee Calls for New Projects

Ontario Soccer proudly announced, over a year ago via [Information Bulletin 2024-15](#), the formation of the Research Advisory Committee (RAC); an innovative research program in partnership with the Canadian Chiropractic Research Foundation (CCRF) and various Ontario universities that engage in sports-related studies.

This exciting collaboration between soccer & science will have the second annual intake for study topic submissions beginning immediately and close for consideration on **June 30, 2025**. Therefore, Ontario Soccer is welcoming, from its Membership as an option, the submission of proposed research topics for Ontario Soccer to explore so we can further advance the game on the pitch and off for future generations. Please [CLICK HERE](#) to access our research study submission form.

While research topic submissions can be made at any time, they are reviewed and selected by the RAC over the summer months on an annual basis. The RAC will then review and consider these submissions for launching a new set of Request for Proposals (RFP) through the relevant networks.

To learn more, please visit [Ontario Soccer's Research Program webpage](#) or email us at research@ontariosoccer.net.
