

RECRUITING GUIDANCE PROGRAM ECVBA Volleyball Club

The VBall.Live program is an affordable option for families who would like to work with an experienced Recruiting Coordinator and be provided an overview of how the recruiting process works, a framework to the process for their child's specific interests, and have an experienced person supporting their efforts until the athlete is settled with their college choice ('your college-counselor for volleyball').

Following an initial consultation, get your questions answered when needed by an expert in the scene. Through his 20 years of experience as a Recruiting Coordinator, Dan Kaplan understands the process in junior volleyball specifically, and has many collegiate coaching contacts throughout the country.

PROGRAM FEATURES:

- An initial consultation (via phone, online, or in-person) to discuss the overall recruiting process and the dynamics specific to the athlete.
- Unlimited inquiry via e-mail, text, or phone to get help, and questions answered during the process.
- Communication with college coaches when needed, to ensure connections and a smooth process.
- Support throughout the recruiting process, until the player is settled with a school.
- **To Register:** Go to VBall.Live, select 'Recruiting Guidance' from the menu (check with Joe for registration code).

SUPPORT DETAILS:

Each family is different with respect to their needs, so support will vary depending on the athlete and their particular situation. Some examples of the nature of support families might need would include:

Understanding the best path to find appropriate schools, answering questions regarding action items (when/what to send via e-mail or say in a call to a coach), help in getting connected with a coach, decisions about camp, interpreting the content of an email from a coach or the nature of a conversation with a coach, what to anticipate for a visit, how to manage the overall timeline to maximize opportunities, helping clarify the current status of a pending opportunity.

Support will ensure the athlete takes the best path with their effort.
