

Scheduling Dryland

On the Dryland Facility Scheduling page:

You will see the next 5 days of scheduled dryland events on the right. On this page you will need to create an event for each 30-minute session. *Please note, that if you receive an event email from the Dryland room (from Matt Satzinger) please accept the invite or else you may create a double booking.

IMPORTANT SCHEDULING NOTE

There have been reports of double bookings in the dryland scheduling .

When you receive the confirmation email to the event- If you specifically decline the event, it will open the time back into the availability. But the scheduling system will still keep your invite.

The easiest way to resolve this is to NOT decline the invite.
