

2026 Andover HS/Bantam Summer Training Program

This program is designed for players that want to increase skill, learn new tactics, win more puck battles, and become a better hockey player. Dryland sessions will focus on developing shooting and puck handling skills as well as agility, quickness, strength, flexibility and athleticism.

Players will be divided into two groups for ice sessions. The splits may be by ability, age, position, or other factors at the discretion of the camp director.

Players are also highly encouraged to register for the Andover High School Summer Strength Program. Registration is done through the “Lock and Key” or ParentVue at the AH Schools website. There is a special session set up for hockey players from 11AM – 12 PM on Monday through Thursday and will be led by camp and school staff.

Camp will meet every Monday through Thursday.
