Charge person (4th option)		Call person (4th option)	

Emergency Phone Number

911 for all emergencies

- Remain calm and remain on the phone until you are told to hang up.
- Briefly state the reason for the call (for example, *"I want to report an injured player who requires medical care"*).
- Let the operator control the conversation – all questions asked will provide important information to assist the officers/first responders who are attending.

Injuries on the Field

- take control and assess the situation when encountering the injured player.
- Instruct the player to lay still.
- Instruct bystanders to leave the injured player alone.
- Do not move the player and leave all equipment in place.
- Evaluate the injury and situation. Once you have determined the severity of the injury, decide whether an ambulance or medical care is required.
- If the injury is serious and warrants immediate attention that you are not qualified to provide, seek out someone with the highest possible level of first aid/medical expertise.
