

# KIHA Covid Protocol

The following steps will be implemented during the reopening period of KIHA. If a participant does not agree with or chooses not to comply then they will be removed from the list of participants.

- All participants will need to sign up and complete a waiver prior to attending their scheduled time (waiver form also will cover the government COVID tracking requirement)
- All participants will dress at home and/or in the parking lot keeping in mind social distancing
- All participants will have their temperature taken at the door before entering the building
- All participants will enter the facility at their given time not before. They will skate straight to their given arena to participate in their activity.
- All participants will practice social distancing if asked to sit on the bench. We will mark 6' distances on each bench to assure safe distance
- All participants will leave the arena and go straight outside to change after they are through with their activity
- Youth participants will be required to buy a face guard for their helmets or wear a mask for their activity. These shields will be accessible at the KIHA pro shop.
- KIHA staff will schedule no overlap for arenas to enter and exit. (EX. If Warrior starts at 7pm then Gecko will start at 7:30pm.)
- KIHA staff will also wipe down bench area after every activity this will include but not limit to the seats, water tray and the top of the boards.
- KIHA staff will wear masks at all times while working the facility.
- KIHA staff will be turning off the electronic door after allowing participants in for their activity. The door still can be used as an emergency exit but this will stop any non-confirmed participants or family members from entering the building.
- KIHA will only schedule 14 skaters and 2 goalies per rink at any given time. This will keep our numbers under 35 people in the facility at any given time including staff. Under the state opening procedures for "Gym and Fitness Facilities" during Tier 2 they are allowed 25% of capacity which means KIHA would be allowed 276 people in our facility. Our normal capacity is 1106 so 25% of that is 276. I believe that no more than 35 in the facility is definitely doable and will allow us to start our hockey program.
- KIHA will start out with 0 fans to limit the area to be disinfected and will open up as slowly as we feel is safe.
- KIHA will keep a detailed spreadsheet of participants Name, Date, Time, Arena
- KIHA will NOT be renting any gear. All players must have their own to play

All skates will be set up for 1 hour and will cost \$10 per skater. We are trying to set up online payment but if that doesn't happen it will be cash only at the door so DON'T forget your \$10.
