1. WELCOME COACHES!!!!

COACHING PHILOSOPHY

I believe a coach can be a very positive influence in a young person's life. I stress teamwork, responsibility, initiative, discipline, and a strong work ethic. Each player on the team is an essential part of the team and is my responsibility to nurture this to build a strong team.

WHAT MAKES A GOOD COACH?

Attitude

- Always be positive! Your actions as a coach transcend to your players. If you have a negative attitude, so will your players.
- Always encourage, never criticize.
- Use team building in your practices.
- When you see a player that is upset on the field, it may be a good time to pull the player for a cool down to avoid the situation escalating.
- Keep you cool!

Being organized

- Always have an extra roster with you at your game.
- Have your laminated passes on a ring in alphabetical order.
- Make sure any player that is serving a RED CARD suspension is listed on the game report. It is your responsibility to make sure the referee indicates this on the game report. This way there is no questions of game served for your players. Retain game report copies especially on these games.
- Know the rules and share this knowledge with your parents.

Being a coach is an important position, coaches shape young minds. Your players look to you for guidance, mentoring, encouragement and support. They look to you to find their strengths and work those skills into your team dynamics. There is a place for everyone on the team. Your job as the coach is to find their talent and use it within your team. Your job many times seems unappreciated, but you persevere!

Your reward is when team cares about each other. Win or lose they had a fun day playing the game we all love SOCCER!

YOU ARE APPRECIATED!

Everyone serving as Coach, Assistant Coach or Team Manager of teams affiliated with GYSA are required to be properly registered with FYSA, and have a valid laminated and pictured coach's pass.

For example, if an affiliated club has seven 12U Co-ed teams it may not place one of seven teams in GYSA and play the other six in-house, cross-over with another club, or play in another recreational league. If an affiliated club wants an exception to this rule, the club must petition GYSA Executive Committee to allow some teams to participate in GYSA, while others do not, with a clear reasoning why they should be omitted. There will be no guest play permitted on any GYSA travel teams or in-house teams. U8 Pre-Academy teams can have guest players, if GYSA Primary Team is not compromised for game play.

5. RED CARD REPORTS

5.1. COACHES

The following sheet shows how to notify the Red Card Chairman who will record a Red Card that has been issued or a suspension which has been served. Referee will submit a copy of game report to the GYSA Red Card Chairperson. The coach will also send email notification of card issued or suspension served to the address below.

- Games suspensions must be served with official games only and a game Forfeit/friendly matches do not count against time served.
- Game suspensions carry over from one year to the next and could go into year two if the player/coach does not register in the next season.
- Red Card suspensions for dual registered players can only be served with the team in which the suspension is earned. Until the suspension is worked off the player/coach is suspended from all other teams they are registered to.
- It is the coaches' responsibility to track the games for the players and know the correct procedure for returning to the game.
- This is found on the www.soccerygsa.org website. Please check daily and notify your league to report an issue.

6. KNOWING YOUR PLAYER

6.1. PARENTS AS A POSITIVE FORCE

A major resource for you and your team is the parents. It is imperative that you hold parent meeting before the season begins and state very clearly your objectives, how you intend to accomplish them and what you expect of the parents. Some notions you may wish to discuss at the meeting:

- ◆ A means of contacting everyone without you doing all the calls.
- ◆ Choose a team coordinator – someone to handle administrative details.
- ◆ Carpooling needs.
- ◆ Days and times of training and how you feel about starting and ending on time.
- ◆ The need for each player to have his/her own ball at each training session.
- ◆ Game schedule and uniform expectations.
- ◆ Most importantly your philosophy about coaching.
- ◆ Above all try to enjoy yourself – if you do, most likely they will also.

6.2. SOME “UNWRITTEN” RULES FOR ALL AGES

- ◆ At any given practice 3 or 4 players will show up needing air in their ball – keep a small pump and valve in your truck.
- ◆ Keep a few pairs of shin guards with you to lend out for those who forgot to bring them.
- ◆ If you do a brief match analysis at the training session following your game, always begin with some form of praise.

6.3. SOME CHARACTERISTICS OF U6 CHILDREN

- Short attention span
- Constantly in motion
- Psychologically easily bruised
- Prefer large soft balls and Nerf balls
- Love to run, jump, roll
- Enjoy climbing
- Can balance on good foot
- Physical coordination suspect
- Catching skills not developed
- Most individually oriented (me, my, mine)
- Do believe in Santa Clause but will not discuss with peers
- No sense of pace – go flat out, they chase something until they drop
- Physical and psychological development of boys and girls quite similar
- Like to roll on the ground – that's in good Clothes, not in their uniform

6.4. THINGS TO EXPECT

- ◆ Most cry immediately when something is hurt – some cry even when something is not hurt.
- ◆ No matter how loud you shout, they cannot or will not pass the ball.
- ◆ Somebody will come off the field in need of a toilet. Somebody will stay on the field in need of a toilet.
- ◆ The only player likely to hold a position is the goalkeeper. Do not even consider teaching positional play.
- ◆ Twenty seconds after the start of the game every field player will be near the ball.
- ◆ Several players will slap the ball with their hands. Several parents will yell at them not to do that.
- ◆ A low flying plane during a game will get 99% of the player's attention. Always leave room for error.
- ◆ During the season, you will tie at least 40 – 50 shoelaces.

Be sure to roll with the punches and get a laugh out of whatever happens. There is just not a heck of a lot you can do to prevent the inevitable – it is the nature of the beast!

6.5. SOME CHARACTERISTICS OF U8 CHILDREN

- ◆ Attention spans a bit longer than U6, but still not at the “team at all cost” intensity.
- ◆ Inclined more toward group activities – essential work here is inclined.
- ◆ Still in motion – twitching, jerking, scratching and blinking are all second nature physical movements.
- ◆ Still very sensitive (dislike personal failure in front of peers) – ridicule from the coach in front of the group is very destructive here.
- ◆ Santa Claus is no longer a peer topic of discussion.
- ◆ Boys and girls still quite similar in physical and psychological development – no facial blemish concerns etc.
- ◆ Beginning to develop some physical confidence (most can ride a two-wheeler at this point).
- ◆ Still into running, jumping, climbing and rolling – Natural instinct, when asked to however – “I cannot do that”.
- ◆ More into imitation of the big guys (sports heroes becoming important). Unfortunately, they are not professional soccer players.
- ◆ Still lack sense of pace – go flat out – will chase ball until they drop.

6.6. THINGS TO EXPECT

- ◆ At least 200 – 300 falls during a season.
- ◆ A game played after a heavy rain will find most of the players in or near the biggest puddle.
- ◆ Girls are not necessarily shyer than boys; in fact, some play much better.
- ◆ There will be conflict between the second grader play rehearsal and one of your practices – please allow the players to go to the school rehearsal, they must face their teachers five days a week.

6.7. SOME CHARACTERISTICS OF U10 CHILDREN

- ◆ Lengthened attention span.
- ◆ They are more team oriented.
- ◆ Still in motion but not as busy – will hold still long enough for a short explanation.
- ◆ Psychologically becoming more firm – confident.
- ◆ Boys and girls are beginning to develop separately.
- ◆ Gross and small motor skills becoming more refined.
- ◆ Prefer team type balls and equipment.
- ◆ PACE FACTORS BECOMING MORE DEVELOPED – DO THINK AHEAD.
- ◆ Some are even becoming serious about their play.
- ◆ Enjoy the uniforms, team association.
- ◆ Are now more inclined toward wanting to play rather than being told to play.

6.8. THINGS TO EXPECT

- ◆ They enjoy some form of ritual just before the game begins – teach them a yell or a cheer (make sure it is acceptable).
- ◆ Each player has his/her own pre-game nervous behavioral twitch – see if by the fourth or fifth game you can predetermine what each one will do before the game starts.
- ◆ Boys and girls can still play on teams together at this age. Some of the more rapidly developed boys will pick on those girls not up to par – as their coach you must try to blend their abilities or disguise their inabilities on the field during a game.
- ◆ During a season, a confident back player will turn and pass a ball to an unsuspecting goalkeeper who will be shaking his head angrily as he pulls the ball out of the net.
- ◆ You will try like blazes to teach them about offside, but they will still be caught at critical times in games.
- ◆ No matter how many field errors made in the process, the goalkeeper will be blamed at least 80-90% of goals scored against him.

7. CONCUSSIONS OR HEAD INJURIES

Informed Consent about Concussions or Head Injuries

Effective July 1, 2012, Florida Statute 943.0438 requires the parent or guardian and the youth who is participating in athletic competition or who is a candidate for an athletic team to sign and return an informed consent that explains the nature and risk of concussion and head injury (including the risk of continuing to play after a concussion or head injury) each year before participating in athletic competition or engaging in any practice, tryout, workout, or other physical activity associated with the youth's candidacy for an athletic team.

The facts:

- ✓ A concussion is a brain injury
- ✓ All concussions are serious
- ✓ Concussions can occur without loss of consciousness
- ✓ Concussions can occur in any sport
- ✓ Recognition and proper management of concussion when they first occur can help prevent further injury or even death

What is a concussion? A concussion is an injury that changes how the cells in the brain normally work. A concussion is caused by a blow to the head or body that causes the brain to move rapidly inside the skull. Even a "ding", "getting your bell rung" or what seems to be a mild bump or blow to the head can be serious. Concussions can also result from a fall or from players colliding with each other or with obstacles, such as a goalpost, even if they do not directly hit their head.

To help recognize a concussion, you should watch for the following things among your athletes:

1. A forceful blow to the head or body that results in rapid movement of the head
2. Any change in the athlete's behavior, thinking, or physical functioning
3. Signs or symptoms of concussion that may be reported by a coach or other observer:
 - a. Appears dazed or stunned
 - b. Is confused about assignment or position
 - c. Forgets sports plays
 - d. Is unsure of game, score or opponent
 - e. Moves clumsily
 - f. Answers questions slowly
 - g. Loses consciousness (even briefly)
 - h. Can't recall events prior to hit or fall
4. Signs and symptoms that may be reported by the player:
 - a. Headache or pressure in the head
 - b. Nausea or vomiting
 - c. Balance problems or dizziness
 - d. Double or blurry vision
 - e. Sensitivity to light

- f. Sensitivity to noise
- g. Feeling sluggish, hazy, foggy, or groggy
- h. Concentration or memory problems
- i. Confusion
- j. Does not feel right

Both parents/guardians and players are advised to take the Center for Disease Control’s free online concussion training [HERE](#).

Under Florida law, this player who has suspected concussion or head injury must be removed from play or practice. Before the player may return to practice or competition a written medical clearance to return stating that the youth athlete no longer exhibits signs, symptoms, or behaviors consistent with a concussion or other head injury must be received from an appropriate health care professional trained in the diagnosis, evaluation, and management of concussions. In Florida, an appropriate health-care professional (AHCP) is defined as either a licensed physician (MD, as per Chapter 458, Florida Statutes), a licensed osteopathic physician (DO, as per Chapter 459, Florida Statutes), a licensed physician’s assistant under the supervision of a MD/DO (as per Chapters 458.347 and 459.022, Florida Statutes) or health care professional trained in the management on concussions.

I have read and understand this consent form, and I volunteer to participate.

8. PROPER HYDRATION

8.1. FYSA WATER BREAK POLICY

The Florida Youth Soccer Association has a responsibility to the players within our association to make sure they are playing in a safe environment. One of the dynamics of our state is that it's a hot and humid climate. Our climate can create a dangerous situation for heat illnesses (i.e. heat cramps, heat exhaustion, and heat stroke). Based on our situation, we must ensure that our players are properly acclimated, hydrated, and, after the match, re-hydrated to make sure that our players are able to function in the environment that is Florida soccer.

There are steps that we as coaches and administrators must take to ensure proper hydration of our players, which is crucial in making sure our players are fully prepared to play. FYSA athletic trainers feel that most players today do not properly hydrate themselves prior to play.

Players need to hydrate themselves throughout the day:

- Two to three hours prior to participation, players should drink 16 oz. (2 cups) of fluids.
- Ten minutes prior to activity the players should drink 8oz. (1 cup) of fluids.
- Fluids can be water or sports drinks.

The reason for proper hydration prior to the activity is to allow for absorption into the players' systems. During the match, players need to replace the fluids that are lost during the activity. Rehydration should occur after the activity. It typically takes four to six hours after the activity for players to rehydrate themselves. Leagues and tournaments need to take this into account when scheduling games.

The current FYSA policy has considered the needs for soccer as well as the need for the safety of our players. Water breaks will be mandatory when the heat index is higher than 85 degrees. Heat Index is a better gauge for possible heat illnesses than temperature or humidity alone. The heat index can be found on most weather websites and in your local newspapers.

Special considerations need to be made for players U12 and below, because their physiology causes them to absorb more heat and dissipate this heat less efficiently than adults. Therefore, players U12 and below should have more water breaks regardless of the heat index.

Coaches, administrators, referees, parents, and players need to educate themselves about proper hydration and heat illness. This is important not only to the players' performance but also their safety. The FYSA coaching education program reviews these fundamentals, and clubs and referees should also provide training for their membership.

The FYSA water break policy and more information about proper hydration and heat illness can be found at our FYSA website at www.fysa.com.

8.2. FYSA REVISED WATER BREAK POLICY

Revision to 402.4

In any FYSA sanctioned match a break will be given at the midpoint of each half of regulation time and at the end of each overtime period (if played) for player hydration. This break will be given at a normal stoppage of play and it is mandatory for any FYSA sanctioned match.

- a. This policy is mandatory for all matches U-12 and below
- b. This policy is mandatory for all matches U-13 above subject to the following conditions:
 - 1. The heat index is 85 degrees at game time. (see chart below)
 - 2. If requested by either coach prior to the match. (This should be determined during a pre-match conference with the referee)
 - 3. The referee at any time may declare a break for the safety and welfare of the players without conference or agreement of the coaches.

Relative Humidity	Air Temperature (F)										
	70	75	80	85	90	95	100	105	110	115	120

85	71	78	87	99	117						
90	71	79	88	102	122						
95	71	79	89	105							
100	72	80	91	108							

Violation may result in charges under FYSA's Code of Ethics.

Suggestion for implementation:

- 1. For ages U-12 and below the game to be played in quarters with a short break between the 1st and 3rd quarter with a longer halftime. This quarter's break should be 2-3 minutes at most for players to hydrate.
- 2. For matches U-13 and above, the decision regarding water break should be made before the match.
