Points for Pudwill

Bring some quarters and please help us in supporting this CVC family! Rylie has been an athlete with CVC for the past 2 years.

Background: "Melanie was diagnosed with VHL (Von Hippel-Lindau) disease while she was pregnant with her first daughter, Rylie. VHL is a rare, inherited disease that causes tumors to grow in the body. These tumors typically grow in the brain, spinal cord, kidneys, pancreas, adrenal glands and reproductive tract. Unfortunately, Melanie has had numerous tumors grow in her brain. She had her first brain surgery right after the birth of her daughter, Rylie. For the past 14 years, Melanie has undergone numerous scans and procedures to monitor and remove these tumors. This past year has been financially difficult for the Pudwill family with numerous trips and procedures done at Mayo. Earlier last year, Melanie had a gamma knife procedure to try to remove the tumors without opening her head for brain surgery. The procedure was effective for the smaller tumors, but unfortunately, the larger tumors reacted, resulting in her having emergency brain surgery in October at Mayo. Her out of pocket costs not covered by insurance are very high since her procedures have had to be done at Mayo. Melanie will have to make continued trips to Mayo to monitor and treat the tumors that were unable to be removed due to their size and location in her brain. Please consider donating to the Pudwill family to help with their accumulating medical expenses."

Each team will be provided a can or jug at check-in to the tournament. If you wish to participate, please bring along quarters/change. The can is to be passed around between the team's parents/supporters. Following the point system below, deposit your quarters into the can when your daughter completes one of the tasks! All donations will go to the Pudwill family to help with their accumulating medical expenses! Who can raise the most?!

Task	# of Quarters
Ace	3
Ace on Game Point	4
Kill	4
Block	4
Special Save (Viewer's Discretion!)	4
Dig	3
Team streak of 3 points in a row	3
