

George P. Gibbs Little League

Dear Parents,

I would like to take a few moments to address the ongoing concern regarding Coronavirus.

Your Little League Board of Directors will take every precaution to ensure the safety of the children, coaches and extended families. Yesterday morning we made the decision to suspend all of our team related activities indefinitely. This will include but not be limited to the ongoing AAA clinics and continuing evaluations, the Intermediate evaluations and the upcoming TBall and AA clinics that we have scheduled for later in March.

We then heard later in the day from Little League International that they are requesting that all Little League events be suspended until at least April 6th. We are hopeful that we will get back on schedule in April and be able to proceed with Opening Day on May 2nd. You can be assured though that we will not allow anyone in our little league family to be put in harms way.

Regardless of how long our preseason activities are delayed we are still looking forward to a fun filled season of baseball from the first outdoor practice right through the All Star games and tournament teams of June and July.

If anyone has any questions or concerns please feel free to contact me directly at president@gibbslittleleague.org

Sincerely,

Patrick McGrail
President
George P. Gibbs Little League
