

SportsEngine Team Website/App

- Teams should be up within a few days after draft – teams will be notified by email
- Make sure your team knows to ask you any questions first – we can't be tech support for 1,400 families
- Anything you can't figure out, ask your Commissioners – they will answer/escalate as needed
- Resources/guides on our website: go to Home – SportsEngine Info
- Team access/notifications – second parents need to link own SE account!
 - Or primary parent can add a second email, but won't include text
- We will post help articles on the website for common issues
 - Let us know any suggestions

SportsEngine Coach Features

- You can use the team sites and/or app to:
 - Communicate with your team – email, text, in-app messages/chat
 - See roster and contact information for your team
 - Schedule practices and team events
 - Get RSVPs for league games, practices and other team events
 - Enter scores for COMPLETED games (only) (competitive divs only)
- You are responsible for monitoring and moderating the content on your team's site – report anything inappropriate to your Commissioners ASAP

SportsEngine Spring Rec Coach **DON'TS**

- SE gives broad powers – so there are many things you MAY NOT DO:
 - **Change the team name, logo, colors, or any other structural aspect of the team site**
 - It is critical that the team name/site stay exactly as it is, to sync up with our other systems
 - **Make ANY changes to your roster, including adding/removing coaches or players, changing the name or role of any coach/player, or permissioning anyone**
 - This is all handled centrally **by LMLL ONLY** – contact your Commissioners if you think something needs to be changed
 - **Make ANY changes to a LEAGUE GAME (excluding Travel teams)**
 - Unless specifically instructed by your Commissioners
 - **Schedule any OTHER games (excluding Travel teams)**
 - Use Events, not Games, to schedule a scrimmage or any other team event/activity
 - Self-scheduled games will mess up the league schedule and standings
 - **(More may come as we learn – use common sense, ask first!)**
- Any of the above will be very disruptive to our ability to run the league
