

Current Program and Virtual Program Update

We hope this message finds you and your loved ones in strong health and good spirits.

We wanted to send the latest on PAL programming and our reopening plan. Our infrastructure committee is working hard on a reopening plan for the facility and our programs. As of now, staff will be back in the offices on a limited basis starting May 20th however PAL is designated as a gym and there has been no updates of when and how gyms and recreational activities will be allowed to resume. Due to this, our programs will remain suspended until more details become available and no PAL program will be permitted to restart or begin until that time. This includes our Summer Experience Program. As soon as we have additional information from the State of CT or City of Danbury, we will reach out with an update. With the above in mind, we are committed to running any missed or delayed programs when deem safe to do so. Any family that has already signed up for a program will have their spot secured when programs resume. Please email info@danburypal.org with any additional program questions.

While our ball fields, basketball court and facility are currently empty, we are still charging forward with important activities to better serve our families such as fielding community surveys and needs assessments, streamlining program enrollment, and developing virtual programs to enhance youth engagement.

This is why we need your help!

Our mission at PAL is to offer a wide range of programs and services

addressing the mentoring, athletic, and recreational needs of children in the community are necessary more now than ever.

We have created a survey to better assess the needs and wants of virtual programming this summer and we would like your input. Please take a moment to click all virtual programs your family would like to participate in and add additional ideas as well. This will help us prepare Virtual Programs for the upcoming summer.

We wish you and your family continued good health and cannot wait to see everyone back at PAL when it's safe to do so!
