

# Social Distance Protocol

Keeping the virus at bay will require a team effort from all of us. We will do our part to practice proper hygiene and perform the necessary sanitation measures and expect players and their families to do the same:

- There is no walk-up training. All players must register on app or website for any session they are attending.
- There are no cash transactions.
- We will not allow any player to train if he/she is not feeling well, or a member of his/her household is ill.
- There are no parents or spectators are allowed in the gym!
- We created new entry and exit for the gym. All players will enter the building from the rear gym door closest to the front door. All players will exit directly from the gym doors closest to the back of the building. We will no longer use the main entrance.
- Players are encouraged to wear a face covering to reduce the risk of spreading the virus through respiratory particles, but is not required while on the court. Coaches will also wear masks if less than 6 ft away from players.
- We have installed hand sanitizer dispensers in the gym. We encourage everyone to sanitize their hands upon entering or anytime he/she touches one's face.
- All players will be required to bring their own water bottle with their name on it. Water fountains are closed. Any training tools provided by us will be sanitized before and after each use.
- Practices and Academy sessions are spaced 15 minutes apart to allow for disinfecting the gym, equipment, and to avoid contact with other players. No early arrivals are permitted. Please stay outside or in your car until practice/academy session time begins.
- The gym will be disinfected every night by a professional. No players or coaches are allowed in the hallways.
- One person at time allowed in the bathroom off of the gym.

Our athletes' health and safety is our number one priority and we will do everything in our power to provide a safe training environment.
