Subject: Games/Shared Ice Starts October 1st

Hello everyone,

As of October 1, we will be allowing games and shared ice practices in USA Hockey Arena. Please keep in mind we will still have restrictions in the building. Our goal is to give each team two rooms to practice social distancing. For practices inside USA Hockey Arana, we will continue to have players only at 12U and above and for 11U and below, players may be accompanied by one family member.

1. For the OLY rink , we will be turning skate rental into locker rooms 5 and 6. Our other 2 rooms will be located in the rink itself to use as rooms 7 and 8. These rooms will only be used if necessary. We know it is cold, so we will avoid that as much as possible.
2. For the NHL rink, we will use the four private rooms as rooms 5-8. We do have the U20 Camp coming in from Oct 8-13 resulting in us having only 4 rooms on that side. If you have NHL ice between Oct 7-13, please do not schedule any games during those days. (Maybe trade with some on the OLY side for the night.) Shared ice during those days, we will accommodate as we get closer.
3. For games only, we will be allowing two family members/player; no friends, no friends of friends and no scouts. 24 hours prior to each game you (home and away teams) must provide the rink staff a list of attendees. An email will be provided at a later date that you can send those lists to. The family members must have a health check form and must also show ID so we can check them off the list. Same goes for the away team. They must provide a check in list as well as health forms. Opposing teams will be allowed in the building 20 minutes before game time. Please pass along our policies and procedures to the visiting teams. Health check and procedures at: <https://www.usahockeyarena.com/healthcheck>

Just a few reminders as well-

1. All games at USA Hockey Arena will be broadcast on HockeyTV.
2. Players should not bring any valuables into the building as our temporary locker rooms will be unattended.
3. Please tell your opponents that face coverings are mandatory at all time inside USA Hockey Arena, including on the ice.
4. For those that require Pro Shop services, they should notify the attendant at the check in table upon arrival. The Pro Shop may or may not be available.

This is another step forward back to normalcy so please continue to do a great job. Continue to remember your health check forms as well as the 20 minutes before and after rule.

Thanks and let us know if you have any questions
