Please register through our new webpage <https://www.eastonsoccer.com>

This is a vacation clinic for players from Pre-K through Grade 8. This vacation program focuses on developing both technical skills and tactical experience.

As with many of our programs, in our April and Summer Clinics, each player will enjoy the experience of learning under the professional guidance of Easton Soccer's tremendous coaching staff led by Easton Soccer's Director of Coach and Player Development, John Barata (USSF A License). Our innovative clinic curriculum will feature all components of the modern game from technical skill development to real game tactical situations.
