**RE: RESPONSE TO NATIONAL TEAM ATHLETES' LETTER  
DEAR MEMBERS OF THE BOARD**

As the largest field hockey club in Canada, the West Vancouver Field Hockey Club is deeply concerned by the recent letter from our national team athletes expressing their loss of confidence in Field Hockey Canada's leadership. Their call for transparency, accountability, and change cannot be ignored.

We stand firmly with our national athletes. At WVFHC, safe sport, athlete welfare, and responsible governance are non-negotiable. These values are essential to building trust and ensuring the future of our sport. It is unacceptable that athletes representing Canada feel these standards are not being upheld at the national level.

We call on the Board of Field Hockey Canada to respond swiftly, publicly, and with evidence. Athletes must know their voices are heard, and the field hockey community deserves clarity and accountability from its national leadership.

Declining participation across the country is already a pressing concern. Without strong, transparent governance and a positive environment, our sport cannot grow. The responsibility lies with Field Hockey Canada to restore trust, provide momentum, and support athletes who proudly represent our nation.

This is a pivotal moment for Canadian field hockey. We urge the Board to take decisive action and demonstrate the leadership our athletes and community expect.

**WVFHC BOARD OF DIRECTORS**

George Haughn, President  
Sue Goddard, Vice President  
Mark Vaughan, Past President  
Margi Spooner, Director  
Nicola Graham, Director  
Gregor Copland, Treasurer
