

**The Wisconsin Track Coaches Association**

## **Service Award**

**Presented to**

**Dennis Meyer**

**This award is in recognition of your dedicated service to the track and field coaches, officials and student-athletes of the great State of Wisconsin. Your time and effort put forth for the betterment of your colleagues and student-athletes has been above and beyond the call of duty.**

**Your involvement with WISTCA began by attending the annual clinic as both a coach and official. You have volunteered your time with setting up and working the registration table for the past fifteen years. In 2018 you took over the duties as the WISTCA Officials Representative. In this position you developed educational sessions at the clinic for your fellow officials. This included developing curriculum and securing speakers for these sessions. You were often one of the main clinicians for these sessions. More recently you organized the officials for the WISTCA Freshmen State Meet. 2020 will be your fortieth season as an official and for over twenty-five years you have volunteered at the State Meet as an Umpire, Finish Judge, Long Jump Judge and as a Clerk. In 2004 and 2005 you were a Starter at the State Meet. Thousands of coaches, officials and high school athletes have benefited greatly because of your efforts. As members of WISTCA, we thank you for all you have accomplished for our organization.**
