

CGSAA School Responsibilities for Annual Track & Field Meet

CGSAA strives to provide a fun and encouraging atmosphere for children to compete in this annual track event. It would not be possible without a coordinated effort from all participating schools. Please review these responsibilities to help ensure the event runs as smoothly as possible.

1. Schools are to enter their participant rosters into the Athletic.net website by the deadline provided by the track commissioner. Details and instructions on the process for entering will be communicated to Coordinators by the CGSAA TF Commissioner (Owen Canfield) prior to the deadline. Do not bring participants to the meet unless their data has been entered- we will not add this data the morning of the meet.
2. Volunteers are appreciated and welcomed as this event would not be possible without them. Please send the name and contact information of any volunteers interested in helping to Owen Canfield prior to the day of the meet.
3. School track coordinators are not to approach the timing tent with any questions. All questions about competitors or results are to be brought to the track commissioner only. No, parents or any other representative should contact the commissioner, only the school's official track coordinator can raise questions to be considered. All results will be posted live online and can only be corrected/updated by CGSAA TF Commissioner(s).
4. Track Coordinators are to provide a text number for communicating any weather delays, important information, schedule changes, or to clarify participant information for the meet. The name of the school, the representative's name, and text number should be sent to Owen Canfield no later than the day prior to the meet.
5. Please contact the Track Commissioner with any concerns, questions or feedback as we want this event to be a positive experience for the children, their families and friends.

Above all- have fun, enjoy the event and thank you for sharing your time and talent so that this event is possible.
