Hello WAHC Families,

We greatly appreciate your participation in the 2016-17 annual membership survey. The response rate was over 62% and provided our board very good insights to evaluate for the coming year.

The membership survey included two questions to gauge interest in aligning the Squirt and Mite levels by high school boundary. For the 2017-18 season, the data supports we continue to run the Squirt and Mite programs as is. Going forward, we will continue to monitor our members' position on the issue of aligning teams by high school boundary through our annual survey. We will engage both high school coaches in our program with the objectives to grow our enrollment numbers and improve our players' overall hockey skills at all levels.

Our board has partnered with both the Executive Director and President of MN Hockey, as well as the District 8 Director, to ensure we are supporting our membership in a fair and balanced manner. In the end, the most important factor is what you want, and we are committed to listening to your input.

The WAHC Board of Directors
