

CHECK SETTINGS: VEO CAM

On the Settings page, you can find information about your camera and connect it to internet.

You can keep track of the following important information about your camera:

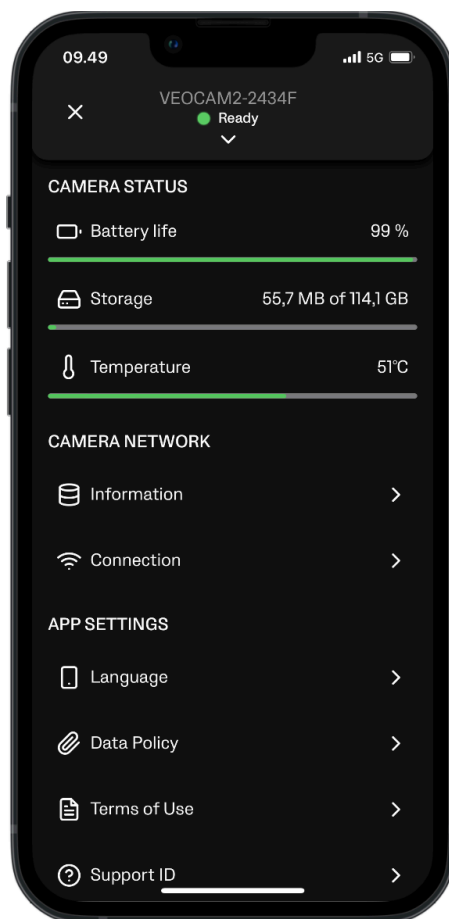

- Battery life.
- Storage.
- Temperature.
- Network information.

To access the Setting page:

1. Connect to your Veo Cam.
2. Once connected to the Veo Cam, tap on **Settings** in the top right corner.

The information page will open now.

See your camera internet connection details by clicking **connection**.
To connect your camera to wifi, tap WiFi connection, select your preferred wifi, and enter the password.
