RUSTY EVANS

Centennial High School, Head Baseball Coach

I began coaching in 1999 and have run the gamut of high school baseball. From assistant C-Team coach, to currently, head coach of Centennial High School, I have done just about every role of coaching within a high school program. While I was an assistant coach, I was part of 7 State Championships, and in 2016 I was fortunate to win the State Championship for the 1st time as a head coach. Through it all, I believe creating practice environments to maximize player's abilities to compete at the highest level is one of the most important jobs of "coach".
