

Sponsorship Letter

Dear Community Leader,

Port Orange Volleyball club (POV) is a local, competitive non-profit volleyball organization that serves the youth of Port Orange and its neighboring cities. As the volleyball co-sponsor/partner for the City of Port Orange Parks and Recreation, POV offers children in our community sport specific training, competitive events, and quality coaching to help them reach their potential through the sport of volleyball.

Our athletes participate in local, regional, and national competitions throughout the Spring and Fall. Three years ago, we began with one team and will grow to seven team this season. POV athletes work hard on and off the court. Each year our athletes have participated in local fundraisers and supported other local non-profit organizations associated with children and families.

Our future continues to look bright with the help of our athletes, volunteers and community. Last Fall, we started a developmental skills program for boys and girls of early elementary age. Due to the program's success, we continued the program throughout the year. This past Spring our beach volleyball program returned for the second year.

POV is a non-profit competitive volleyball club that knows the value in building partnerships in the community. To help reach our goals, we need your support. Your support helps provide affordable fees, purchase sports equipment and assist with operating costs which help allow us to continue to grow as an organization. Playing in an organized sport not only helps a child perform better in school but it also builds self-esteem and leadership skills. Your support will have a direct and positive impact on youth in your community.

We appreciate your support in advance.

Sincerely,

DBSC – Port Orange Volleyball

(Sponsorship details on back)
