

When a manager has a question in regards to a process, including game day, please refer to the By-Laws. Ignorance of a By-Law or rule is not an acceptable defense to non-compliance.

1. The By-Laws include a number of different laws that include the passage of time. The ADASL defines Day 1 as the day the event occurs.
2. When a team releases and then wants to resign a player, the team must send Mike Hogan \$10.00 via PayPal and an email stating that they want to resign the player. The team must have an open roster spot and 10 days must have passed since the release date. Only Mike Hogan can add the player back to the team roster in Affinity so the player's name will print out on the game roster.
3. It is 100% the responsibility of the Home Team to not conflict with the kits of the Visiting Team. The Refs are the sole determining factor in deciding if the kits do not conflict. As we raise the standards of the ADASL, teams should wear conflicting socks.
