

CLUB PASS RULE

Club Pass Players: Are required to play on a team playing in a North Texas Sanctioned League

Purpose: The Club Pass Players Rule is designed to allow teams to expand the available roster for games. This allows players to play on a team from the same Club in any division, including an older age level on a permanent basis.

Requirement: The Club Pass Player to be used for the API League must follow the current rules, guidelines (for example: roster sizes), and meet the following criteria:

Club Pass Players begins at 11U

- 1. 11U-12U Teams** are eligible to have a pool of up to 26 players from within your club. The 26 players includes your permanently rostered players. **For example:** If your official roster contains 16 players, you may have an additional 10 players in your player pool

- 2. 13U - 19U Teams** are eligible to have a pool of up to 30 players from within your club. The 30 players includes your permanently rostered players. **For example:** If your official roster contains 18 players, you may have an additional 12 players in your player pool.

- 1.** A Club Pass Player may play in any division within their age group.

- 2.** A Club Pass Player may play in any higher age group.
For example:
A 13U player may play for any 14U and up team.

- 3. A Club Pass Player must be a registered NTSSA Player within your club, playing in a NTSSA league.**

- 4.** New players may be added at any time until the player limit has been reached. No existing approved play club pass players may be removed to make room for new club pass players and no existing club pass players may be exchanged once approved.

- 5.** A Club Pass Player may be in only one (1) player pool plus his primary team.

- 6.** A Club Pass Player may play on his primary team & player pool team in the same day.

- 7.** Once a player has been added to their API League Player pool, they are there for the entire playing year and cannot be removed or exchanged. A club pass player being

released from the club cannot be replaced.

- 8.** A player is eligible as a Club Pass player into any age group their birth year is eligible for regardless of what age group that player's rostered team participates in, providing other restrictions are met. For example: A player, who is classified as a 15U and is rostered to a 16U team, may be in a player pool to a 15U team. In this situation he would satisfy age requirements.
- 9.** Any Club Pass Player that receives an ejection is required to sit out the next sanctioned game whether it be with the team he received the ejection with or his primary team.
- 10.** Any rules not covered here, refer to North Texas State Soccer Association Bylaws and Rules.
- 11. Clubs with Divisions:**
All Club Pass Players must be officially registered with North Texas State Soccer Association.
- 12. Penalty:**
Coach/Club in violation of this rule will be subject to review by the API League A & D Committee.
- 13. Supervision:**
To be supervised by the API League and the Got Soccer game day cards. All API League existing rules shall remain in effect.

NEVER ADD A CLUB PASS PLAYER TO YOUR PRIMARY ROSTER

How to Add Club Pass Player to API League Event Roster/Game Card

Login to team GotSport Account

Click on the following:

1. "Team Management"
2. "Team"
2. "Rosters"
3. Select "Event Roster" from drop down box " Arlington Premier Invitational League " Click "Search"
4. "Add Club Pass" Using the **Add Club Pass Player Button**
5. A New Window will appear, you will enter the First, Last Name, and DOB of the player and click "Search".
6. Once the search result appears you will Click "Add".
7. The Club Pass Player will now appear on your "Event Roster" with "CP" under the Status column.
8. Team must use the notify button in GotSport to notify API when a club pass player has been added.

Note: Once Club Pass Player is Approved Player Status will be changed to "CP"

Club Pass Players will be on the team Match Game Card.

There will be "CP" next to the players name.

You will cross through the players that are not playing.

Duplicate Jersey #s are not allowed
